## BIO

Back in the summer of 2002, co-founders and fellow guitar players, **Frank Kelly** and **Jet Phil** recruited good friends **Mike Plant (Sword)** and drum god **Michel "Away" Langevin (Voivod)** to release Paradise's 1st album: "*Rock Anthropologists on the Kon Tiki Voyage*". Summer of 2004: the usual suspects were rounded-up including a collaboration of Voivod's late but great **Denis "Piggy" D'Amour** to work on Paradise's follow-up record "*Hotel*". Now composed of **Frank Kelly** (guitars), **Fred Kelly** (bass), **RL Black** (vocals), **Fred Crew Grrr** (guitars) and **Mat Hias** (drums), **Paradise**, like a phoenix that is reborn from its ashes, releases a new eponymous album that sways on the line between hard rock and pure heavy metal (mixed and mastered by **Kevin Jardine** from **Slaves On Dope**). From the opening piece and future classic "*Straight From Hell*" to the final "*Free in Exile*", Paradise delivers an album where the balance between catchy riffs, attitude, intensity and melodies is perfect.

So all you rockers, metal heads and soon to be converts should be prepared for a ride through hell, with **Paradise!**
